

Attention Physics, Electrical and Chemical Engineering, and Materials Science Graduate Students!

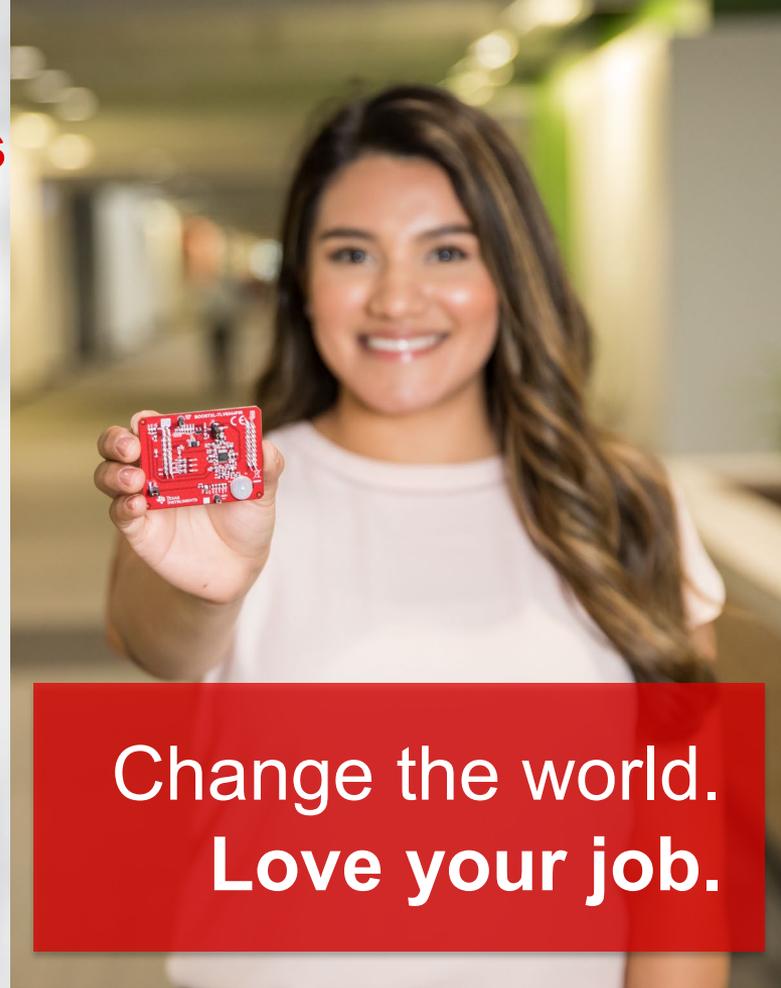

Texas Instruments Info Session

**Next-day interviews for qualified candidates*

Thursday, Oct. 24th, 5-7 PM

**Physics Research Building, Smith
Seminar Room (Rm 1080)**

Join us for pizza and the opportunity to meet an OSU alum that leads engineering process optimization efforts to help TI achieve fab cycle time goals and who design and develop the state-of-the-art in high-density, 3D advanced semiconductor packaging technologies.

**Change the world.
Love your job.**
